

Funding

It was felt that if money was required for implementation of improvements identified in the questionnaire it should come from the following:-

- 52% from Existing Local Authority Budgets
- 52% also from Grant Applications
- 30% from Sponsorship.

There was little support (12%) for increasing Borough or Town Council Tax (Precept) by even a small amount.

Action

- For any improvements or projects associated directly with the contents of this Parish Plan, awareness should be raised of potential funding sources from various grants which may be available, as an alternative to normal local authority budgets.

Implementing The Plan

Responsibilities of the Steering Committee and the Town Council

The Medlar-with-Wesham Parish Plan Steering Committee is responsible for taking forward the actions of the Plan.

Medlar-with-Wesham Town Council will continue to support the Plan and will independently monitor the progress of the Plan.

The Town Council may be required to provide assistance with, or to carry out, some of the actions. They will liaise with Fylde Borough Council, Lancashire County Council and other authorities and organisations where necessary.
